

IAH 209: Art, the Visual, & Culture Multimodal Research Project

For the final project, you will create, individually, a website that serves as a digital resource for the public at large. In this website, you will describe, examine, and analyze the issue of morality as it relates to a film of your choosing beyond those already included in the course. That is, you **CANNOT** use *Spiderman3*, *X3*, *Watchmen*, or *Lady in the Water*.

First, you will describe the film including its plot and characters. Then you will analyze in some way the connection between the concepts presented in the course and your chosen film. Your completed website must in some way utilize multimedia such as images or video or both. Your project will be evaluated on the basis of:

- The completeness of the information provided
- The quality of the analysis presented
- The use of multimedia
- The design of the website
- The correctness and quality of the writing.

Specifically, for the project you must:

- Design a complete and fully-functioning website
- Provide a resources page citing all the sources utilized
- Use at least 5 research sources beyond the course readings
